APPENDIX B

If implementation of the Affordable Health Care Act creates opportunity for more beneficial means for providing health insurance coverage, either party, after December 31, 2013, may request the other to meet for the purpose of discussion over changes to the provisions of the Phoenix Painting Industry Trust Fund (Health and Welfare Fund). If such a request is made, the parties shall meet at reasonable times to confer in good faith, however, neither party shall be obligated to negotiate any change to any other term of this Agreement. Any changes, provisions and or modifications to the Phoenix Painting Industry Trust Fund would require agreement between the Union, Employer and Trust Fund.

During the process of implementation of Health Care Reform laws during the period covered by this Memorandum of Understanding (4/1/2013 through 3/31/2016), it will be necessary for large companies, as defined by Health Care Reform laws, to ensure collectively bargained employees and non-collectively bargained employees have a uniform Standard Measurement Period (in length and in starting and ending dates) in order to avoid penalties. This will require open dialog with union representatives at the time these periods need to be established by the company to ensure the union uses the same Standard Measurement Period as the company. A "measurement period" is the look-back time period that cannot be shorter than three (3) months, nor longer than twelve (12) months, during which hours are calculated to determine whether an employee has averaged at least 30 hours per week for determining eligibility for group health insurance coverage.

The Employer may not unilaterally implement changes in the contribution rate, nor lock-out bargaining unit employees or take any other economic action in support of its bargaining position. The Union shall not engage in any strike or slowdown activity as an economic tool for bargaining.
